

## Belarusian-Russian University:

- Status of the state university of the Republic of Belarus and the Russian Federation
- Accreditation in Belarus and Russia
- 65 years of engineering education
- More than 4,500 students
- More than 50,000 graduates
- 6 faculties and 18/20 departments
- 8 academic and laboratory buildings
- 4 dormitories
- 3 gyms, a ski center, outdoor sports facilities, a dance hall, a theater studio, 4 assembly halls
- University presence in global rankings: MosIUR, Ranking of BRICS universities, Webometrics, QS EECA 2022, UniRanks

### Admission Contacts:

**Address** 43, prospekt Mira,  
Mogilev, Republic of Belarus

Inter-State Educational  
Institution of Higher Education

## Belarusian-Russian University

### Faculty of Construction

Speciality:

### Construction of Buildings and Structures

Concentration:

### Automobile Roads

[www.bru.by](http://www.bru.by)

## Employment Destinations:

- Road construction trusts and departments
- Design organizations
- Asphalt concrete and cement concrete plants
- Laboratories for automobile road inspection and diagnostics
- Capital Construction Departments

## Job Titles:

- Production or Technical Department Engineer , Cost Estimation Department Engineer, Laboratory Engineer
- Section Manager
- Head of Production or Technical Department
- Head of Cost Estimation Department
- Head of Laboratory
- Chief Engineer
- Project Manager
- Director, etc.

## Our Partners:

## Faculty of Construction

Speciality:

## Construction of Buildings and Structures

Concentration:

## Automobile Roads

Qualification (Degree):

Construction Engineer (Master)

## Core Disciplines:

- Automobile Road Design
- Automobile Road Construction
- Engineering Surveying
- Automobile Road Maintenance
- Automobile Road Diagnostics
- Automobile Road Reconstruction
- Bridges and Road Engineering Structures
- Traffic Management and Safety
- Fundamentals of Information Technologies
- Computer-Aided Design for Automobile Roads

## Professional Competencies and Knowledge:

- Design of automobile roads, streets, and transport infrastructure
- Proficiency in Credo Roads and AutoCAD software
- Proficiency in modern digital surveying equipment
- Practical skills in automobile road construction, maintenance and reconstruction
- Knowledge of automobile road diagnostics methodologies
